 11. Safety 8

 12. Fees 8

Section I: General

1. Purpose.

This regulation prescribes policies and control measures governing hunting on the U.S. Army Yuma Proving Ground (YPG). Hunting activities are managed in accordance with applicable Federal and State laws and the Integrated Natural Resources Management Plan (INRMP) for YPG (2012). Nothing in this regulation shall be construed as requiring YPG to perform any action in violation of any state or Federal statute, rule, or regulation including, but not limited to, the Anti-Deficiency Act.

2. Applicability.

a. This regulation applies to all organizational elements of YPG, and other military or civilian personnel who engage in hunting activities on this installation.

b. Violation of this regulation may subject military personnel to disciplinary action under the Uniform Code of Military Justice (UCMJ). Some acts prohibited herein, are also violations of State and Federal law and violators may be prosecuted in State and/or Federal Courts. At a minimum, all violators face loss of hunting privileges for one or more years and repeat violators

may lose hunting privileges permanently.

c. “Hunting activities” are defined as any activity that occurs in conjunction with or in support of hunting. This includes camping while hunting, scouting trips, and travel to and from areas where hunting is taking place, and accompanying another person who is hunting.

4. Responsibilities.

The Commander, YPG, will make final policy decisions regarding the hunting program. The Commander designates the following YPG offices and personnel to manage day-to-day operation of the hunting program.

a. Environmental Sciences Division (ESD). ESD oversees the hunting program implementation and recommends hunting policy for command approval. ESD administers the annual hunting program, to include coordination with Arizona Game and Fish Department (AGFD) and U.S. Fish and Wildlife Service (USFWS). ESD is the primary point of contact for

hunting information on YPG ESD coordinates with Range Control, Directorate of Emergency Services, and Safety to determine any special access necessary for bighorn sheep hunters hunting in Arizona Game Management Unit (GMU) 43A (Cibola Range north of Cibola Lake Road), 43B (Cibola Range south of Cibola Lake Road) and 41 (Kofa East Arm).

b. Directorate of Emergency Services (DES). DES issues the annual hunting access permits. DES will enforce applicable Federal laws, rules, and regulations on the installation. DES will also issue and maintain records regarding Range Clearances for hunters entering and/or leaving the installation after normal duty hours. Further, DES will cooperate with the AGFD and USFWS to the maximum extent possible, without violating the Posse Comitatus Act or related statutes. DES is the primary YPG point of contact for any “search and rescue” activities that arise due to the hunting program. DES is responsible for conducting the background check required to be performed on visitors to YPG.

c. Enforcement. Personnel authorized and responsible for the application of federal, state, and local laws, and Army and YPG regulations on YPG; include but not limited to DES, Arizona Game and Fish Department, and U.S. Fish and Wildlife Service personnel anywhere within the YPG boundary.

d. Range Operation, Yuma Test Center (Range Control). Range Control is responsible for recording Range Clearances during normal duty hours. Range Control will work with the Public Affairs Office to maintain current information regarding range closures and ensure that it is posted to the Facebook and Twitter accounts and will notify ESD of any closures of hunting areas that occur during the hunting season.

e. YPG Safety Office. The Safety Office ensures compliance with applicable safety regulations. The Safety Office is also responsible for content of the mandatory safety briefing for all participants in the hunting program on YPG.

f. Public Affairs Office (PAO). PAO is the primary point of contact for the general public to contact the installation. PAO will refer appropriate inquiries regarding the hunting program to ESD. Range Control will work with PAO to ensure YPG Facebook and Twitter feeds are updated with current open/closed status for the each of the hunting areas.

g. YPG Visitor Center. All aspects of the Hunting Access process can be completed at the YPG Visitor Center located in Building 2020 off Imperial Dam Road at the Wahner E. Brooks Exhibit Park. At the Visitor Center hunters and hunt activity supporters can complete the Hold Harmless Agreement, view the Range Safety briefing, register the firearms to be used during the hunt, and undergo a National Criminal Information Center background check. See Section 8 for additional information regarding the registration process for firearms brought onto YPG.

5. Policy.

a. The installation is closed to all hunting activities with only those exceptions identified in this regulation. Hunters and their party members are encouraged to access the YPG Facebook and Twitter feeds in order to access the most current open/closed status for each of the hunting areas on YPG. Citizens of the United States are allowed to obtain YPG Hunting Access permits

after presenting a valid state issued identification card; e.g. driver license or identification card.

b. The use of Family Radio Service and General Mobile Radio Service devices (portable radios) is allowed but may be impacted by on-going mission activities.

c. Hunting Access Permits are required for each member of a hunting party and are available in the YPG Visitor Center. Office hours are Monday through Thursday from 0630 to 1700 in Building 2020 which is located on the Wahner E. Brooks Display Park off Imperial Dam Road.

d. Hunting Access Permits allow the hunter to obtain a Range Clearance from Range Control. A Range Clearance is required anytime a card holder is on YPG conducting hunting activities as defined in this regulation.

e. The Range Clearance is the mechanism for tracking hunter locations on YPG. This tracking is for the safety of the hunter and maintenance of the YPG hunting program. Hunters and hunting parties must obtain a Range Clearance before entering YPG. When a hunter or hunting party moves from one designated hunting area of YPG to a different designated hunting area, they must contact Range Control and inform them before they move. Movement within a designated hunting area does not require notifying Range Control. All Range Clearances expire at midnight and must be renewed daily. Hunters and hunting parties that are camping on YPG must renew their Range Clearance between 1700 (5 pm) and 1800 (6pm) each day they are camped on YPG.

f. All Range Clearances must be cancelled when the hunter leaves the range. When a hunter returns to their vehicle to leave the range, they must contact Range Control to tell them they are moving to the boundary. When the hunter or hunting party leaves the YPG boundary, they must contact Range Control again and cancel their clearance.

g. Failure to cancel a Range Clearance may cause YPG to conduct a search and rescue operation. Conduct of a search and rescue operation may lead to the cost of the search and rescue operation being assessed to the hunter or hunting party. Failure to cancel a clearance may lead to the suspension of a hunters access privileges for the current season or permanently.

h. The areas of YPG approved for hunting are remote, but unexploded ordnance (UXO) may be encountered anywhere within the YPG boundary. If you encounter UXO, do not disturb it. Mark the location, record GPS coordinates, if possible, and report the location to Range Control as soon as possible.

i. YPG General Access Hunting Areas are shown in Attachment 1. In order to open as much land as practicable, the hunting areas have been divided such that some areas can be closed for testing while others remain open for hunting. Also, these smaller areas make it easier for Range Control to determine the approximate location of a hunter or hunting party in the event of an emergency.

1. Cibola Range Hunting Areas (from south to north and west to east):
 - a. Martinez Hunting Area (south of Martinez Lake Road)
 - b. Arrastra West Hunting Area (north of Martinez Lake Road)
 - c. Arrastra East Hunting Area (north of Martinez Lake Road)

- d. Heart Mine Hunting Area (north of Arrastra along west boundary)
- e. Trigo South Hunting Area (north of Arrastra, east of Heart Mine)
- f. Gould Wash Hunting Area (north of Heart Mine, south of Cibola Lake Road)
- g. Trigo North Hunting Area (east of Gould)
- h. Mohave Wash Hunting Area (north of Cibola Lake Road)
- i. Weaver Wash Hunting Area (east of Mohave Wash Hunting Area)
- j. Cibola Hunting Area (south of Weaver Wash and Ehrenberg Hunting Areas)
- k. Ehrenberg Wash Hunting Area (east of Weaver Wash Hunting Area, south of north boundary)
- l. Highway 95 Hunting Area (east of Highway 95)

2. Kofa Range Hunting Areas

- a. East Arm Hunting Area
- b. 500 KV line Hunting Area (the area between the southern boundary of YPG and the 500 kilovolt power line)

j. Special Access Bighorn Sheep Hunting in Cibola Range (GMU 43B). In the Chocolate Mountains to the west of Highway 95, Bighorn sheep hunting is allowed only when the activity can be conducted without conflict with the military mission and when coordinated through Range Control. This area is closed to all other hunting activities.

k. Hunting on YPG is a privilege. Hunting is allowed only in those areas and times where it does not conflict with the military mission of YPG. Hunting may be disrupted or curtailed, without notice, as necessary to support the military mission or to ensure public safety. YPG is a test and evaluation facility for weapon systems, parachute systems, and training personnel. Failure to obey policies and procedures contained in this regulation may result in serious injury or death.

l. Hunters are required to comply with all applicable State, Federal, and local statutes, rules, and regulations; including those specific to YPG. Violation of game laws (on the installation), the firearms regulation (YPG Regulation 190-11), or this hunting regulation (YPG Regulation 210-11) may result in loss of eligibility to hunt on YPG for one or more years and may include a bar to entering the installation. Repeat offenders may be denied a hunting access permit on the installation permanently. Violators of State or Federal laws will be reported to the appropriate State or Federal law enforcement agency. Hunters found on YPG outside of the designated YPG Hunting Areas or without a YPG Hunting Access Permit may be prosecuted for trespass. Hunters may be required to complete a harvest survey.

m. Hunting activities on YPG are conducted at the participant's own risk. All participants in the hunting program must possess a valid YPG Hunting Access Permit in addition to current documentation required and issued by the State of Arizona.

n. Hunters are authorized to drive on established roads, and wide-channel wash bottoms in the designated hunting areas. Any other off-road use of motorized vehicles is prohibited, including, but not limited to driving around gates meant to stop vehicular traffic.

o. Camping in conjunction with hunting is allowed. Campsites will be returned to their original state before leaving; all refuse shall be hauled out. Downed wood only may be used for campfires on site, however, YPG encourages hunters to bring their own fuel sources for camp and cook fires. Due to the research and development nature of YPG, activities can change daily. Hunters who choose to camp on YPG accept the possibility that they may be required to move with little advance notice. **Those camping on YPG are required to contact Range Control between 1700 and 1800 (5 pm and 6 pm) to renew their Range Clearance.** Range Clearance renewal is required each day a hunting party is camped on YPG.

p. Possession of firearms on YPG is governed by YPG Regulation 190-11. Hunters are encouraged to familiarize themselves with this regulation. Hunters should be aware that carrying a weapon into any Federal building on YPG, other than assigned quarters, is a violation of Federal law. Further, State concealed carry permits are not recognized on Army Installations and the carrying of a concealed firearm is prohibited.

q. The carrying of a loaded firearm in a vehicle is prohibited on YPG. Firearms carried in a vehicle will be secured in the trunk. For vehicles without a trunk, firearms will be encased in a container other than the glove compartment and carried in such a manner that they will not be readily available to the driver or passengers. Commercially available trigger locks and other security devices are strongly recommend to deter and prevent loss and theft.

r. Hunting with military weapons and/or military ammunition issued for duty or training purposes is prohibited.

s. Use of Government vehicles or aircraft for hunting is prohibited except as sanctioned for management purposes by authorized personnel.

t. Use of alcohol while hunting is prohibited on YPG.

u. Use of controlled substances without a prescription is prohibited on YPG.

v. With the exception of a legally harvested game animal, removal of any natural or manmade object from YPG is prohibited. This prohibition specifically includes, but is not limited to rocks, plants, fossils, petrified wood, historic and prehistoric artifacts and government property to include UXO, wiring, spent shells, etc.

w. Use of cameras for taking pictures of the game animal is allowed. Use of trail cameras while scouting is allowed. Taking pictures of man-made structures, either directly or in the background, is prohibited.

Section II: Procedures

6. Hunting Program Information.

a. Hunting Program Online. YPG will review the Hunting Program Webpage and the documentation contained therein, annually. Updated versions of all hunting related materials are posted on the internet and can be found by using the YPG Facebook webpage.

b. Information. More information on the YPG Hunting Program and current status of the various hunting areas is available at <https://www.facebook.com/USAYPG>.

c. Hunting Area Access Updates. YPG uses Facebook and Twitter to release up to date information regarding access privileges for the hunting areas listed above.

7. Hunting Program Access Permits.

a. Prospective hunting program participants must submit a completed Application and Hold Harmless Agreement and Privacy Act Statement for each hunting access permit (Attachments 2 and 3). Applicants are required to pass a NCIC background check as part of the application process

b. Each person that enters YPG, either to hunt or as part of a hunting party shall have a YPG hunting access permit. This includes employees of YPG and military personnel stationed on YPG.

c. Applications must be completed in person at the YPG Visitor Center. Office hours are Monday through Thursday from 0630 to 1700 in Building 2020 which is located on the Wahner E. Brooks Display Park off Imperial Dam Road. Completing the application process includes the following:

(1) All applicants must sign a release and indemnification (Hold Harmless Agreement) acknowledging that they have viewed the Range Safety briefing on safety/potential risks and agree to hold YPG harmless from any liability resulting from hunting on YPG. Release forms on behalf of minors must be signed by the custodial parent or legal guardian. YPG has been used for military training and testing since 1942, and prospective hunters need to be aware of the potential dangers posed by Unexploded Ordnance (UXO) and the harsh desert environment. This form must be completed with every application.

(2) All applications must be accompanied by certification that the applicant has viewed the current YPG Range Safety briefing. All prospective hunters, including minors, must be familiar with the material included in the Range Safety briefing.

(3) All applicants must comply with all the above listed requirements and hunting program access permits will not be issued until the application is complete. Providing a complete application is the responsibility of the prospective hunter.

(4) Prior to being issued a Hunting Access Permit, all applicants must complete a background check administered by Department of Emergency Services (DES) in the YPG Visitor Center.

(5) Hunters will provide enforcement personnel all requested information such as licenses, permits, and firearm registration forms, and will fully cooperate with their efforts to enforce laws and regulations. Enforcement personnel include DES, AGFD Wildlife Managers, and Federal Fish and Wildlife Officers. Hunters must peacefully obey any request to leave the installation, or a given part thereof, by any civilian employee or military member, immediately.

Complaints may be made through appropriate channels, but safety and security demand that disputes not be arbitrated in the field.

8. Registration of Firearms.

a. In accordance with the requirements contained in YPG Regulation 190-11, US Army Yuma Proving Ground Registration and Control of Privately-Owned Weapons, Explosives, and Ammunition:

b. Any person, not occupying a YPG residence, who enters YPG with a firearm, must register the firearm prior to entry or immediately after entering USAYPG.

c. Registration will occur at the YPG Visitor Center using the Firearms Registration Certificate in Appendix A of YPG 190-11 (Attachment 4). The following information on each firearm to be registered will be taken to the YPG Police Desk: *caliber, type, serial number, make, model, finish*. **DO NOT bring the firearm into the Visitor Center.** A copy of the Firearms Registration will be provided to the registrant and will be maintained with the firearm while the firearm is on YPG. Registration will be valid for all adults listed on the registration form.

d. If requested, the firearm registration document must be produced.

e. Residents who have previously registered their weapons IAW regulation YPG 190-11 must still obtain a hunting access permit.

9. Procedures for Hunting on YPG.

a. Check in. Hunters will check in with YPG Range Control to receive a Range Clearance before entering the installation to hunt. Hunters entering the installation will check in with Range Control (928- 328-3333 for East Arm (GMU41), 928-328-2047 for GMU43A and GMU43B). When Range Control is not available hunters will be transferred automatically to DES (Police Desk) to acquire a Range Clearance.

b. Each hunter will provide their name, their hunting access permit number, the number of members in their group, the number of vehicles and the license plate number of each vehicle in the group, estimated length of stay, which hunting area, and identify what part of the hunting area in which they will be hunting.

c. The Range Clearance is the mechanism for tracking hunter locations on YPG. This tracking is for the safety of the hunter and maintenance of the YPG hunting program. Hunters and hunting parties must obtain a Range Clearance before entering YPG. When a hunter or hunting party moves from one designated hunting area to another designated hunting area, they must contact Range Control and inform them before they move. Moving within a designated hunting area does not require notification. All Range Clearances expire at midnight and must be renewed daily. Hunters and hunting parties that are camping on YPG must renew their Range Clearance between 5 p.m. (1700) and 6 p.m. (1800) daily.

d. Check-out. Hunters will cancel their Range Clearance within one hour after leaving the installation. Hunters leaving YPG will cancel their Range Clearance with Range Control (928-328-3333 for East Arm, 928-328-2047 for other areas). When Range Control is not available hunters will be transferred automatically to DES to cancel their Range Clearance.

e. Range operations depend on Range Control knowing who is on the range and where they are on the range. Failure to check-out may result in a loss of hunting privileges. Failure to check out may result in the assignment of monetary penalties if it is necessary for YPG to search for a missing party.

f. Overnight Camping. Hunters who want to camp overnight on the installation must declare this when calling in for a Range Clearance. Hunters must give the location of their campsite to Range Control/DES upon check-in if known, or as soon as a site is selected. Anyone staying overnight must contact Range Control on a daily basis between 5 p.m. (1700) and 6 p.m. (1800) in order to renew their Range Clearance.

10. Procedures for Hunting Bighorn Sheep on YPG.

a. Hunters receiving a bighorn sheep tag for AGFD GMU 43B who wish to hunt on YPG must contact Environmental Sciences Division (or 928-328-2125 or 928-328-2024) to make arrangements to receive a special access briefing. Special access to the bighorn sheep area along Highway 95 will be allowed as long as it does not conflict with ongoing military activities or the protection of cultural and natural resources. ESD shall obtain from AGFD a list of bighorn sheep hunters that drew tags in GMU 43B prior to the start of each season to initiate contact regarding special access procedures.

b. All procedures listed above in Section 7 must also be followed.

11. Safety.

a. Hunting, and in particular, hunting in a remote desert environment has inherent risks if safety and common sense are not followed. All prospective hunters should familiarize themselves with the following risks:

b. Unexploded Ordnance (UXO). YPG has been used for military training/testing since 1942. Areas that are known to contain UXO are off limits to hunting. However, in light of the extensive World War II training at YPG, UXO could be anywhere on YPG. Many items are not obviously recognizable as ordnance. Regardless of the area, hunters should not disturb human made objects, of any kind, in any way. Hunters should note the location of suspected UXO and notify Range Control or DES.

c. Environment. The desert is a harsh environment and no permanent sources of potable surface water are available in hunting areas. Hunters must carry adequate supplies of water. Hunters should carry a cellular phone, citizens band radio, or similar means of communication. Most vegetation is protected with spines or thorns, some sharp enough to penetrate boot leather or radial tires. Some of the fauna can inflict venomous wounds; others may carry communicable diseases.

d. Firearm Safety. Following these four rules will reduce the risk of unintentionally discharging a firearm:

- (1) Treat all firearms as if they are loaded.
- (2) Never point the muzzle of a firearm at anything you are not willing to destroy.
- (3) Keep your finger off the trigger until your sights are on the target.
- (4) Be sure of your target and what is behind it (what is your backstop).

12. Fees.

a. Hunting Program Access Permit fees shall be equitable and comparable to those charged locally for similar activities. Revenue from the sale of hunting access permits are used to support the wildlife management program on YPG.

b. Hunting Program Access Permit fees will be waived for current Active Duty military personnel and to 100% Disabled Veterans who possess a disabled veteran Arizona Hunting License. The parent/guardian of minor hunters must also purchase a hunting access permit at the regular price.

c. As of January 1, 2015 there is no fee.

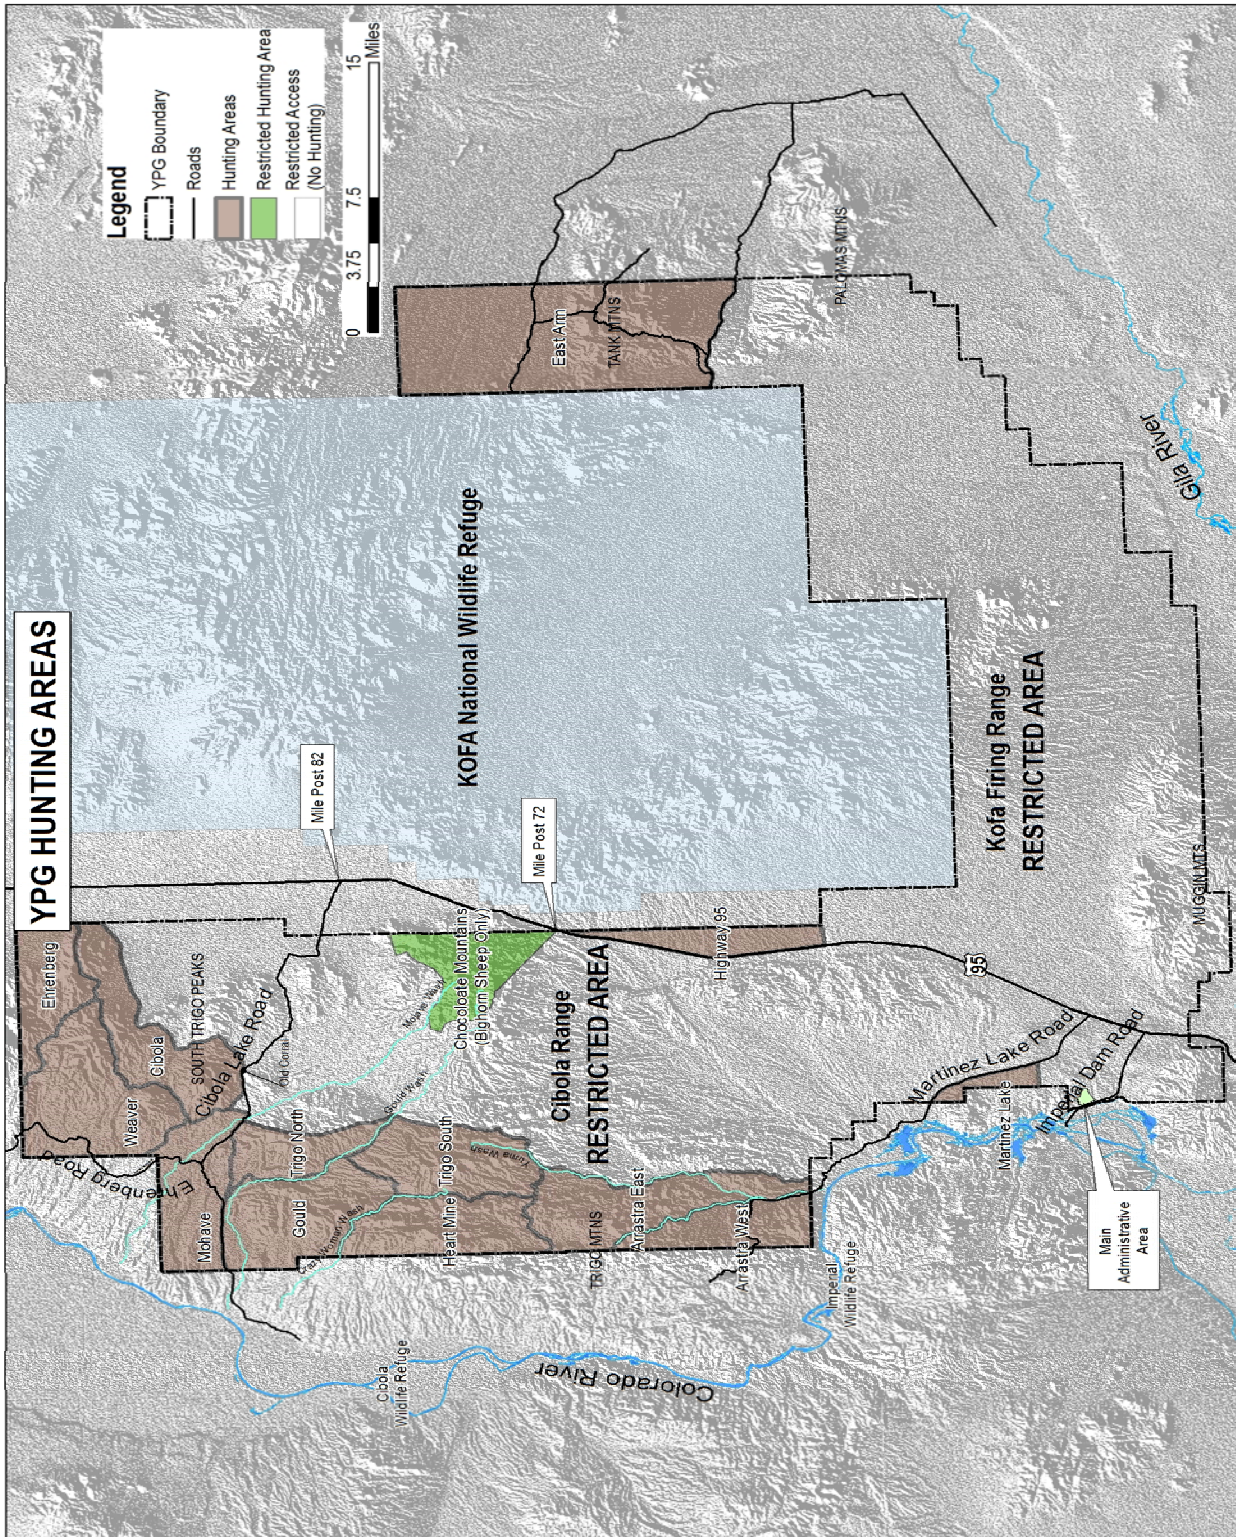

The proponent of this regulation is the Chief, Environmental Sciences Division. Users are invited to send comments to ATTN: IMYM-PWE, U.S. Army Garrison Yuma Proving Ground, Yuma, AZ 85365-9498.
